

AMERICAN SALVAGE ACTION PLAN

6/26/2025

The case for planning

- Tyranny is openly stripping away rights and advancing a police state, tearing down institutions and protections; eradicating social contracts
- “if you don’t know where you’re going, any map will get you there”
- “if you don’t know where you are, no map is gonna help you”
- “change is inevitable, progress is optional” Walt Disney
- Break the insanity of doing the same old thing and expecting better
- Helps build understanding, confidence, ownership, quality of action
 - **People will not change until they feel safe to do so**
- Bullets be flying (not a knife fight)

Dynamic planning process

- Reclaim the transformational arc, short term, long haul
- You know who you are; find your place to be
- DEI is more than good – needed
- Economies of scope and scale
- Open but controlled
- Quiz on Friday

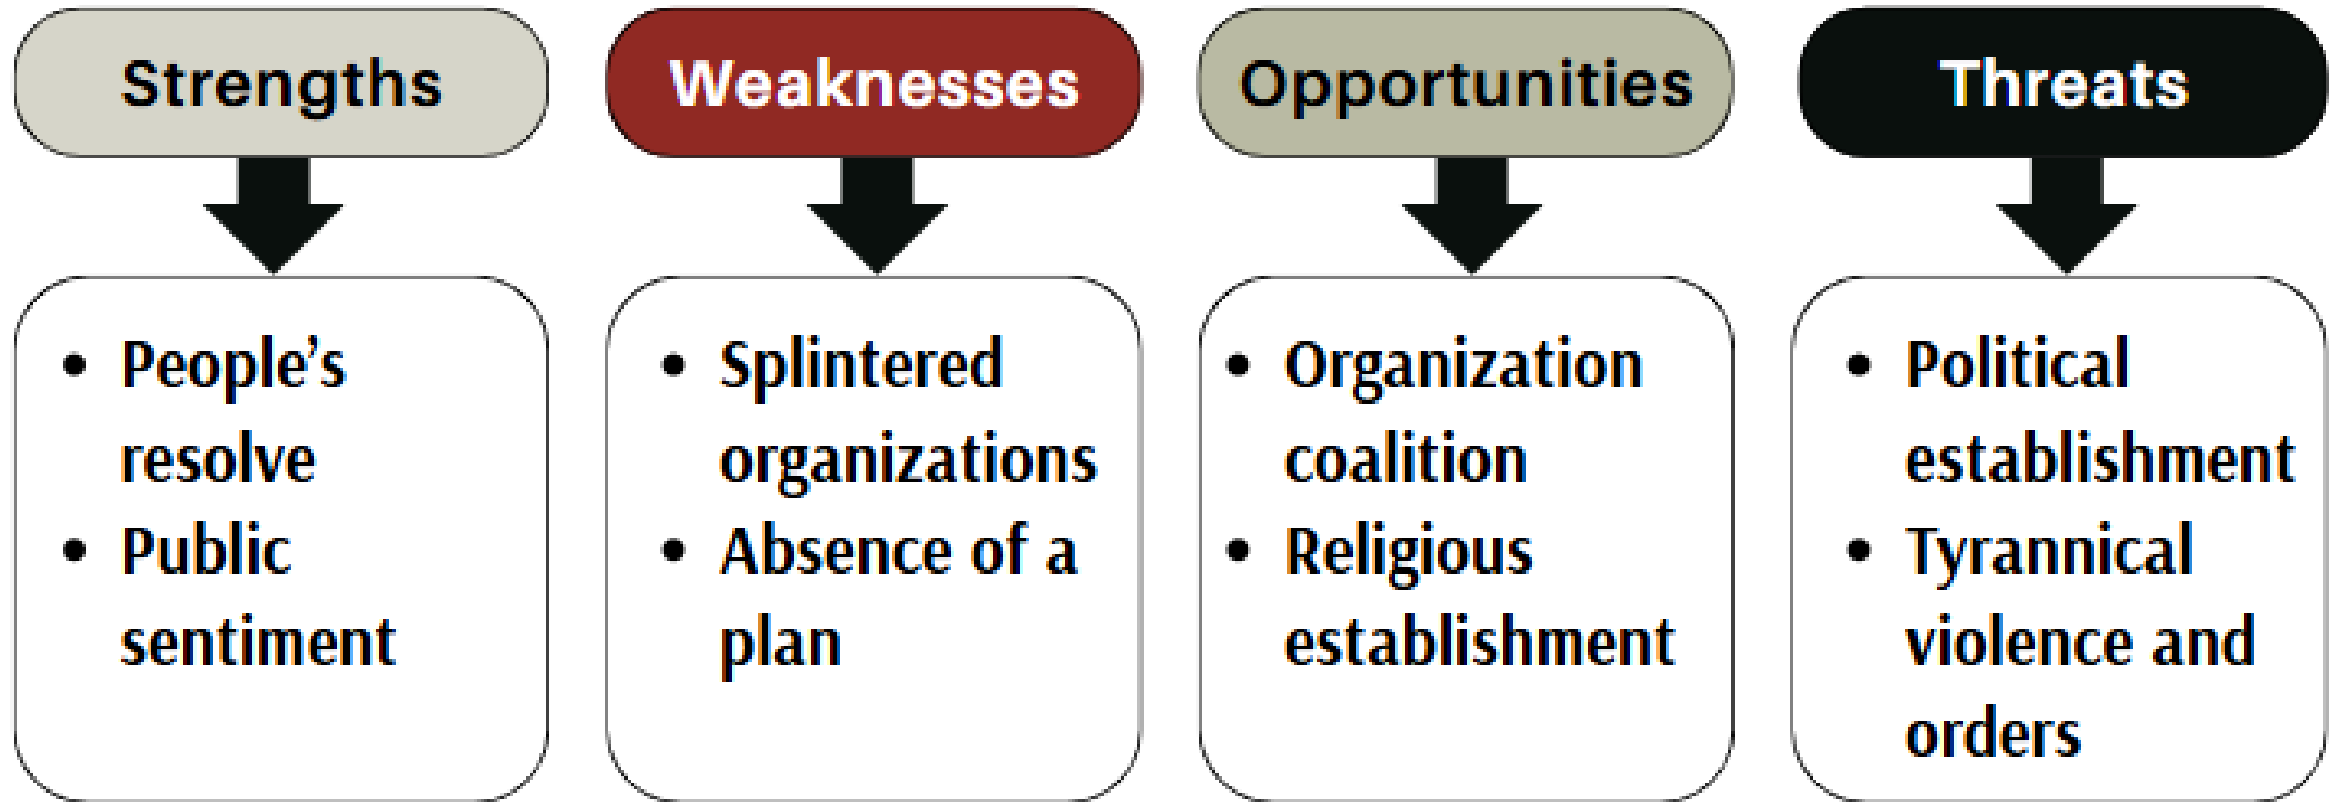

ASAP premises

- Truth and Light
- All life is legitimate
- USA imperialism is in its death throes
- Democracy has not failed us; we have failed democracy
 - Cannibalistic corporations/capitalism
 - Rampant corruption/favoritism
 - Church is not the state
